---	--	---

SUPPLEMENT TYPE
Assisting Narrative

NARRATIVE

My Axon body worn camera (SN # [REDACTED]) was activated during this incident.

On Monday, July 3, 2023, about 0500 hours, I was working as a Deputy Sheriff assigned to patrol at the Eden Township Substation (ETS) in San Leandro. I was notified that there was a critical incident that took place near the area of Liberty Street and 163rd Avenue in San Leandro. I was told the incident involved a crashed vehicle and an officer involved shooting. I was directed to respond to the area and assist where needed.

I arrived and was directed by Sergeant Francis to relieve Deputy Salazar, who was re-directing traffic near the intersection of Liberty Street and 163rd Avenue. I assessed the traffic control in the area and determined the entire intersection needed to be closed from any civilian vehicle or pedestrian traffic.

I positioned my patrol car in a way that blocked southbound vehicle traffic on Liberty Street just prior to 163rd Avenue. I also strung yellow caution tape across each side of the intersection to clearly identify the inner area as a crime scene. The yellow caution tape said, "SHERIFF'S LINE DO NOT CROSS" repeatedly across the entirety of the tape. In the middle area of the crime scene was a silver colored 2105 Hyundai Elantra (Ca # [REDACTED]) with severe damage that appeared disabled and was involved in the critical incident.

While on scene, I was directed to obtain aerial footage and photographs of the crime scene. I utilized my Unmanned Aerial Systems (UAS) DJI 2 Enterprise Dual to obtain the footage, refer to UAS report #2023-131.

I maintained my position throughout the day until the Elantra was recovered and the crash crime scene was broken down, which was around 1425 hours.

I maintained possession of the SD card which contained the footage and later placed the SD card into a secured evidence locker at the UAS office. Sergeant Cota later uploaded the footage to evidence.com.

This is a supplemental report to report #23-009618.
