Supplement 26

On 06/27/2023 at approximately 0930 hours, I was working my assignment as a Detective for the Santa Paula Police Department. I contacted the principal of Ventura High School Marissa Rodriguez in regards to viewing her surveillance cameras for any video pertaining to the crime. I drove to the school with Det. Hector Ramirez and spoke to Rodriguez. She informed me that the camera system was not functioning at the time and she would have to contact the IT department to fix the camera system. On 06/20/2023 Principal Rodriguez contacted and told me that the camera system was fixed. I asked her if I could come on Monday but she advised me she was not in the office. Due to other ongoing investigations I was unable to respond.

I contacted Rodriguez on 07/21/2023 at approximately 1213 hours. She advised me the video surveillance did not retain any video from the listed date of the incident and only goes back 30 days. Due to the fact the video evidence did not retain I was unable to capture any video surveillance. Additionally, the camera angle she showed me would not have captured the area the victim was at.

End of supplemental report.
