---	--

On 04/21/2023, I was assigned to "Area 2" patrol as a Deputy Sheriff K-9 Handler. I was partnered with my Sheriff's Service K-9 "Uzi." "Uzi" and I are a P.O.S.T certified patrol team. I was wearing a full FSO "Class C" uniform and was driving a fully marked FSO patrol vehicle (#1806). My call sign for the shift was 3L97 (Three-Lincoln-Ninety-Seven).

At about 2243 hours, FSO dispatch advised "Kerman 21", Kerman Police Officer B. Inthasone (ID #119), was in pursuit of a dark colored sedan that had a rear California license plate of [REDACTED]. I checked the return on the vehicle and observed the license plate was a reported stolen license plate out of FSO (Case #23-4570). Based on my training and experience, I know it is common for suspects driving stolen vehicles to attach stolen/different rear license plates to avoid law enforcement detection.

I changed my patrol car radio to channel three to hear updates of the pursuit. The vehicle continued driving eastbound on [REDACTED] Avenue, from about [REDACTED] Avenue, to [REDACTED] Avenue. During this time, the driver, later identified as Charles Driver (DOB: [REDACTED]), drove at speeds of over 100 MPH (multiple violations of CVC 22350) and went through numerous posted stop signs at high rates of speed (multiple violations of CVC 22450). Charles drove the vehicle with obvious willful and wanton disregard for public safety while attempting to avoid arrest.

The pursuit entered "Area 2" and FSO was requested to assist/take over the pursuit. At about 2247 hours, I responded code-3. "Air-43" arrived overhead and located the vehicle. Shortly after, due to the extreme speeds, Officer Inthasone lost visual of the vehicle as it went southbound on [REDACTED] Avenue from [REDACTED] Avenue. "Air-43" continued following the vehicle as it entered the orchard located west of [REDACTED] Avenue, east of [REDACTED] Avenue, south of [REDACTED] Avenue, and north of [REDACTED] Avenue. "Air-43" advised the driver of the vehicle leg bailed (which is term used when someone flees law enforcement on foot) and they continued following him through the orchard. "Air-43" observed Charles run back to his vehicle and Charles began driving through the orchard. Charles eventually stopped the vehicle and fled on foot again. As "Air-43" followed Charles, Deputy Norby (ID #A979) deployed his department issued drone and located Charles running.

I arrived at about 2258 hours and observed multiple FSO units surrounding the orchard with their emergency lights activated. Due to Charles being in the northern part of the orchard, I parked my patrol vehicle on [REDACTED] Avenue west of [REDACTED] Avenue. I began making PA announcements stating, "This is the Sheriff's Office K-9 unit, to the subject who just ran, make yourself known and come out with your hands up or we will search with a K-9 and when the K-9 finds you he will bite you!" As I was continuously making this announcement, Deputy Norby advised Charles had ran back to the vehicle and was fleeing in his vehicle southbound through the orchard.

I began driving southbound on [REDACTED] Avenue, to [REDACTED] Avenue. Deputy Norby advised the vehicle crashed into a canal and the driver was again running on foot southbound. Deputy Norby followed the suspect until the suspect hid around a tree just north of an AG pump. The suspect was last seen concealing himself in the orchard about 100 yards north of [REDACTED] Avenue, and about 200 yards west of [REDACTED] Avenue. Deputies were already in this area and more assisting units arrived. Deputies began using their PA system to advise the suspect we knew he was hiding, to come out now with his hands up and if he did not he would be bit by the K-9. These announcements were made numerous times when we were less than 100 yards away from where Charles was concealing himself. In addition, a Deputy was driving around the orchard making continuous announcements advising the suspect to come out with his hands up or a K-9 would be used.

Deputies Meyer (ID #11563), Irwin (ID #11298), R. Perez (ID #11382) and Barroso (ID #11753) formed a search team and were standing in the orchard about 15-20 yards north of [REDACTED] Avenue. I observed the orchard was a mature almond orchard with the trees being fully grown. The almond trees had thick tree branches that were covered in green leaves. Due to the thickness of the orchard it made it nearly impossible to see down the tree rows. I secured "Uzi" on a 30-foot leash and met with the search team on a dirt road west of the orchard. I yelled out, "Sheriff's K-9

unit, if you're in the orchard make yourself known and come out with your hands up. We are going to search with a dog, when the dog finds you he will bite you!" I then made another K-9 announcement, which was met with no response. When I yelled out these announcements I estimate that Charles was about 80 yards north of me. Despite all these continuous announcements Charles refused to surrender peacefully.

I elected to deploy "Uzi" as a locating and apprehension tool for the following reasons:

- Charles was wanted for CVC 2800.2(a), felony evading with a willful and wanton disregard for public safety, a felony.
- Charles was wanted for PC 148(a)(1), resisting arrest, a misdemeanor.
- The area Charles was concealing himself was a thick almond orchard where entry by other than "Uzi" posed a threat of safety to Deputies on scene.
- Charles was actively resisting arrest by concealing himself in the orchard and he had been given ample opportunity to surrender peacefully.
- Charles was unsearched and it was unknown if he had any deadly weapons on his person.

I gave "Uzi" his search command and he began walking northbound through the orchard. I gave "Uzi" about 15 feet of his 30 foot leash and as we walked northbound, I observed a AG Pump which was surrounded by a metal chain link gate. At this time, I yelled out, "Sheriff's K-9 come out now with your hands up or you're going to get bit." When I made this announcement Charles was about 40-50 yards north of me. As "Uzi" was approaching the north end of the AG pump fence, I observed a behavior change in "Uzi" and believed the suspect was close. I began looking around but due to the thickness of the orchard and time of night, I was unable to see anything. I advised the suspect this was his last and final warning and provided an additional K-9 announcement, which was met with no response. When I made this announcement, Charles was about 10-15 yards to the north of me. "Uzi" got to the end of the AG pump fence and turned eastbound quickly. Believing the suspect was fleeing on foot and "Uzi" was giving chase, I gave "Uzi" his bite command.

I observed "Uzi" quickly turned in a northwest direction and was at the base of a almond tree. The tree was in the first row of trees north of the AG pump and the first tree to the east of the dirt road I was on.

As "Uzi" approached the tree, I observed "Uzi" jump up into the tree. "Uzi" was on his hind legs and I observed a piece of clothing in "Uzi's" mouth that appeared to be getting stretched downwards. I began closing distance on "Uzi" but I was unable to see what was happening due to the thick tree branches. I then observed "Uzi" jump back up the tree. At this time, I was finally able to see Charles hiding in the tree. Charles' back was to me and I observed his body was curled up in an attempt to conceal himself. I could not see all of Charles' person due to the thick tree branches. I then heard Charles yell out a sound similar to "Ahhh". As I got through the branches, I observed "Uzi" was biting and holding onto Charles' left arm. At this point, I was right next to "Uzi" and I could see Charles pulling away from "Uzi." Charles was able to pull "Uzi" deeper into the tree, so I grabbed "Uzi" by his flat collar to gain positive control of him. As I grabbed "Uzi", Charles began attempting to flee eastbound through the tree. As Charles was attempting to flee out the other end of the tree, I observed he was pulling "Uzi" through the tree with him. I picked "Uzi" up about 2 feet, in an effort to avoid him getting drug through the tree trunk and branches near the bottom of the tree. As I was attempting to hold "Uzi" I tried to grab ahold of Charles to pull him out of the tree but was unable to due to Charles going deeper in the tree. I observed Charles continued fleeing eastbound out of the tree taking "Uzi" with him. I observed "Uzi" maintained hold of Charles' left arm as he went through the tree with Charles. Charles exited the tree from the opposite side I was on. As I ran around the tree, Charles fell to the floor and I grabbed "Uzi" by his collar to gain

positive control. "Uzi" still had ahold of Charles' left arm and I observed Charles was still attempting to pull/roll away from "Uzi". I deployed my department issued "breaker bar" and gave "Uzi" his out command. "Uzi" released from the bite upon command and Deputies were able to handcuff Charles without further incident. At about 2306 hours, upon handcuffing Charles, EMS was requested.

"Uzi" was secured in my patrol vehicle. I checked "Uzi" for any obvious signs of injury but did not observe any.

While waiting for EMS, Deputy Meyer provided Charles with medical aid. At about 2315 hours, EMS Unit 171 and EMS personnel [REDACTED] and [REDACTED] arrived. Charles was then transported to CRMC.

Sgt. Kitchens (ID #A549) was on scene and was advised of the K-9 deployment.

Deputy R. Perez took photographs of the scene that Charles was detained at.

Officer Inthasone followed EMS to CRMC.

At about 2348 hours, I arrived at CRMC. I observed Charles was in Trauma room 3 bed C. I observed Charles had the following injuries: a small abrasion and some scratch marks on his face which was most likely caused by the tree branches. I observed a minor scratch on Charles' lower back, which was most likely caused by the tree branches. I observed two lacerations on Charles' left forearm near his elbow. The lacerations were consistent with a dog bite. Charles stated "Uzi" bit him on the legs. I checked Charles' legs and observed no injuries. I even had Charles point to where his leg hurt. Charles pointed to his left lower hamstring. Again, I observed no injuries in this area.

CRMC Doctor, [REDACTED], treated Charles for his injuries. Doctor [REDACTED] advised Charles' injuries appeared consistent with a dog bite and were not life threatening at this time. Dr. [REDACTED] put a neck brace on Charles due to Charles being involved in a motor vehicle accident.

I then conducted a civil liability interview with Charles. The interview was audio recorded and a copy was later booked into FSO Evidence.

Officer Inthasone advised the vehicle Charles was driving was found to have a stolen license plate displayed on the back. The vehicle's VIN ([REDACTED]) was ran and the Mazda was found to be a reported stolen vehicle. In addition, during a search incident to arrest, Charles was found to have methamphetamine on his person.

I took photographs of Charles and his injuries. I later uploaded all photographs to EzEvidence.

Charles was later cleared from CRMC and booked by Kerman PD for violations of CVC 2800.2(a), CVC 10851(a), PC 496D (a), PC 148(a)(1), HS 11377(a) and HS 11364(a). Charles was also charged for PC 148(a)(1) by me.

Charles' identity was confirmed using CalPhoto. Upon searching Charles, in a local database Charles showed to be on PRCS for CVC 10851(a). Probation was contacted and it was discovered Charles had discharged PRCS.

Sgt. Severson (ID #0823) was advised of the incident.

See Kerman PD Case #23-1120 for further.

Prior to the end of my shift, I authored a EPCD for the charge of PC 148(a)(1) and submitted it to the on-duty Magistrate.

REPORT DESCRIPTION <b>Drone Deployment/ Add Evidence</b>		
SUPPLEMENT TYPE <b>Assisting narrative, Evidence</b>		

**NARRATIVE****SOURCE:**

On 04/22/2023 at approximately 2242 hours, I was working uniformed patrol for the Fresno County Sheriff's Office. I was requested in the area of [REDACTED] Ave., and [REDACTED] Ave., in Fresno County for units in pursuit of a vehicle. I arrived on scene at approximately 2257 hours, and launched my department issued Mavic 3T FLIR enabled drone.

**Victim statements:** None

**Witness statements:** None

**CERTIFICATE & EQUIPMENT:**

I'm a current Unmanned Aerial System Remote Pilot, Certificate #4751918. At the time of this call, I was equipped with my department's issued UAS, Mavic 3T [Serial # [REDACTED]].

**INVESTIGATION:**

During this flight, I conducted a grid search of the fields west of the above location. At approximately 2257 hours, I located an individual attempting to conceal himself in the field. Shortly after locating the subject he returned to the vehicle involved in the pursuit and entered the driver seat. The vehicle again fled southbound in the orchard. I advised units on scene who formulated a plan to contact and detain the male.

Shortly after entering the vehicle, the driver failed to negotiate a turn and drove into a canal. Upon the vehicle becoming disabled, the driver side door opened and a single occupant fled in a southeast direction.

I continuously monitored the subject as he fled until he attempted to conceal himself in a tree.

During the flight I only observed the single subject and the video is continuous.

Deputies contacted the male who was detained and later placed under arrest.

With the video recording function of the drone activated, media was obtained related to this case. The media was later transferred to a DVD and booked into evidence at Fresno County Sheriff Headquarters. The media is a true and accurate depiction of the event. No alterations were made to the media.

**EVIDENCE:**

1) DVD with drone video.

REPORT DESCRIPTION <b>Scene Report</b>		
SUPPLEMENT TYPE <b>Scene Report</b>		

**NARRATIVE****SOURCE:**

On 04/21/2023, at about approximately 2242 hours, Deputy Irwin and I assisted Kerman PD, in the area of [REDACTED] Ave. and [REDACTED] Ave., in the County of Fresno, regarding a vehicle pursuit. We arrived at approximately 2253 hours.

**VICTIM STATEMENT (S):**

None.

**WITNESS STATEMENT (S):**

None.

**INVESTIGATION:**

On 04/21/2023, at about approximately 2242 hours, Deputy Irwin and I assisted Kerman PD, in the area of [REDACTED] Ave. and [REDACTED] Ave., in the County of Fresno, regarding a vehicle pursuit. We arrived at approximately 2253 hours.

The suspect, later identified as Charles Driver (DOB [REDACTED]) was inside a mature walnut orchard hiding in one of the trees. The orchard sat on the northside of [REDACTED] Ave. Inside the walnut orchard was a pump station approximately 150 yards north of [REDACTED] Ave.. The first tree directly north of the pump station is where Charles was hiding.

I took digital photographs of the walnut tree Charles was hiding in. I later uploaded the digital photographs to EzEvidence.

**EVIDENCE:**

Digital Photographs.

**ADDITIONAL INFORMATION:**

See offense incident for further.
