

POLICE DEPARTMENT CA0361000 SAN BERNARDINO, CALIFORNIA	CR2	CASE NUMBER <b>2023-00034780</b>
---	-----	-------------------------------------

## **SUPPLEMENTAL**

### **ASSIGNMENT/ARRIVAL:**

On 04/02/23 at approximately 0209 hours, I was dispatched to N. Mt Vernon and W. Victoria St , in reference to officers in a foot pursuit and had one resisting. I had already been enroute to this location when officers initially called out of a foot pursuit and was not until 0209 hours I informed dispatch I was about to go on scene.

Officers Tubbs was heard over the radio giving chase to a subject who ran away on his and Officer Vuicich's traffic stop at the aforementioned intersection. Officer Tubbs initially gave [REDACTED] [REDACTED] and had the subject on the ground. I heard Officer Tubbs out of breathe on the radio stating one was resisting.

I arrived on scene at approximately 0209 hours and did not located Officer Tubbs or Officer Vuicich. I looked on my mapping system in my unit and were mapping closer to Spruce and Garner. At this point, I was scared for Officer Tubbs and Vuicich due to how long they have been unsuccessfully able to detain the subject and having a prolonged fight. I went to the intersection of W. Spruce St and N. Garner Ave where I discovered officers on the south curb line of Spruce just west of the intersection.

My body worn camera (BWC) was activated while on scene.

### **SUPPLEMENTAL INVESTIGATION:**

Upon arrival, it was low lighting and I could not see officers initially on scene and only observed Officer Tubb's and Vuicich's unit. I heard yelling and observed both officers as well as the subject, later identified as Dejon Hemphill, laying on ground. I observed Officer Vuicich first and saw he was completely exhausted. Officer Vuicich appeared extremely fatigued. I informed Officer Vuicich I could handle it from here.

I then observed Officer Tubbs holding Hemphill's right hand behind his back therefore I grabbed Hemphill's left hand which he had on the side of his body. I was able to place one cuff on Hemphill's left hand then placed the second cuff on his right hand. At this point, I relieved Officer Tubb's appeared extremely fatigued as well.

I was able to assist Hemphill in standing up and escorting him to the back of my police vehicle. Medic personnel arrived on scene and stated Hemphill was good for transport. I transported Hemphill to Arrowhead Regional Medical Center to be treated for any injuries he sustained fighting with officers. I escorted Hemphill inside of ARMC where I placed him into Pod D where he would be kept til the medical staff would be able to treat him. Officer S. Taylor was already at ARMC where he would take custody of Hemphill.

This concluded my involvement in this investigation.
