SUPPLEMENT TYPE

Use of Force

NARRATIVE

My department issued Axon body worn camera [REDACTED] was not initially activated during this incident, but it was activated when I noticed it had not been properly activated. The BWC footage partially captured the incident. The footage was later uploaded onto a secure server on Evidence.com.

On Wednesday, 05/03/23, I was working as a Deputy Sheriff wearing a full "Class D" utility uniform that clearly identified me as a Deputy Sheriff with the Alameda County Sheriff's Office (ACSO), in my fully marked patrol vehicle (3398), assigned to patrol at the Eden Township Substation (ETS) in San Leandro.

About 0419 hours, ACSO Transit Deputies requested emergency cover for a suspicious person (S1) who had physically assaulted an operator of a Alameda County Transit Bus at the San Leandro BART Station located at 1401 San Leandro Boulevard in San Leandro.

Sergeant S. Light and Deputies M. Ella, P. Serrano, O. Sallam, and Z. Snider arrived to assist.

Upon my arrival, I saw Deputies Serrano and Ella attempting to place S1 into handcuffs. S1 was on a concrete divider, where the buses load and unload passengers directly in front of the BART station. S1 was on his left side and was thrashing his legs wildly and violently in an attempt to escape from the deputies.

I rushed to help and was able to place S1's legs into a figure-four-leg-lock. S1 did not resist my efforts to place his legs into this control hold.

Deputies Serrano and Ella placed S1 into handcuffs and detained him on the northeast curb line of the concrete divider. S1 displayed obvious signs and symptoms of recent illicit drug use. S1 was sweating profusely, had a thick white coating on top of his tongue, and displayed wild and erratic behaviors. S1 was non-compliant and would not comply or listen to any of the deputies' commands.

Additional Transit deputies arrived and attempted to ascertain the welfare of S1. S1 began to thrash his body wildly and kick his legs towards deputies. S1 attempted to scoot away on his hands and feet, while handcuffed, and screamed, "Let me go! Fuck you!"

ALCO Fire and a Falck ambulance later arrived to medically evaluate the victim of the assault and S1.

Sergeant Light arrived on scene, and I asked him to bring the WRAP to help control S1's erratic and combative behavior.

The WRAP is a safety restraint device used to prevent the subject from injuring himself and others.

Multiple deputies attempted to control S1's active resistance and his combative behavior. I gave S1 multiple commands to stop resisting and to relax. S1 did not comply and continued to kick at deputies and thrash his body. Multiple deputies attempted to control S1's upper body/torso. Deputies continued to give S1 commands to stop fighting and to stop resisting, but S1 did not comply.

I assisted Sergeant Light and the other involved deputies in placing S1 into the WRAP. During this attempt to place him into the WRAP, S1 continued to thrash his body, swung his head side to side wildly, and kicked his legs towards us. I used my knees and placed them on the back of S1's calves to add pain compliance. S1 continued to thrash and fight my weight, which was on top of his calves.

Deputy Serrano and Salam rolled S1 over, so he was sitting upright to finish the placement of the WRAP. I remained in control of S1's legs.

I told Deputy Snider to place a Chicago Spit Mask on S1's head to prevent him from spitting at deputies. Deputy Snider placed the spit mask on his head but did not maintain control over S1's head. Simultaneously, S1 kicked his legs upwards, which knocked me off balance, and I fell forward towards S1's face. I stopped myself from falling forward and retained my balance. S1 saw that my face was exposed, and I saw him draw his head backwards and then he forcefully head butted me on the right side of my face. This caused immediate pain on my right temple and behind my right eye. At the time of this incident, I did not have any substantial swelling or bruising.

It should be noted, Sergeant Light and all of the other involved deputies witnessed S1 purposely head butt me on the right side of my face.

Once I was struck in my face, Sergeant Light removed me from the incident to ensure I sustained a severe headache and pain behind my right eye.

I declined medical while on scene and at the time of this incident I had not gone to a hospital for treatment.

Sergeant Light was notified of my injuries and the use of force.

Multiple photographs were later taken of my person to document my state and injuries.

After the photographs were taken, Sergeant Light released me from the scene.

This is a supplemental report to Deputy Ella's report #23-006308.

Per SB 882 (2021-2022):

- a. Whether the Agency member perceived the civilian had a developmental, physical, or mental disability. S1 did not appear to be physically, mentally, or developmentally disabled.
- b. The reason for the contact. Violent suspicious person.
- c. The reason for using force. Force was used to overcome S1's combative behavior.
- d. The injuries sustained, to the civilian or Agency members, and the severity of the injuries. I sustained an injury to the right side of my face, pain behind my right eye, and pain to my right temple.
- e. If any medical aid was rendered. No medical aid was rendered as a result of this incident by ACSO staff.
- f. If the Agency member observed any signs of mental, physical, or developmental disability, drug or alcohol impairment, or erratic behavior. S1 displayed obvious signs and symptoms of recent drug use /impairment and erratic behavior.
- g. Whether the civilian was armed and the type of weapon. S1 was unarmed.
- h. The number of civilians and Agency members involved. One civilian- S1 and seven- agency members.
